

## HEAVY DUTY RUBBER FLOORING

Our heavy duty rubber mats can effectively absorb the shock and impact of heavy equipment and falling weights to minimize damages to floor, equipment and personnel. It is available in various designs and colours to enhance the appearance of the room. It is easy to maintain, just vacuum and mop as needed. It can be used in gym rooms, workshops, multi-purpose halls, showrooms, balconies, or anywhere that requires a durable and shock absorbing surface.
