

Product Data Sheet

PT-10 TREADMILL

The PT-10 Treadmill features elderly friendly designs to cater to the fitness and rehabilitation needs of the elderly. It features a low step up height (19 cm high) to minimise danger of tripping, a full-length handle bar for support, as well as large buttons and display for easy operations. The PT-10 comes with a unique dual direction motor to allow jogging/walking with a low starting speed of 0.3 kph in forward and reverse directions. This is especially useful for rehabilitation training for the elderly. The PT-10 also comes with a shock absorption system to reduce the impact and stress on the knees and joints to provide a safe and comfortable workout.

SPECIFICATIONS

Display – 7 Window LED Display
